Education

Iowa State University Ames, IA
Bachelor of Arts in Software Engineering *Aug 2026 - Present*

Experience

Senior Team Member June 2024 - August 2026
Dairy Queen Grill & Chill *Mount Vernon, IA*

- Worked in all areas of restaurant operations, including customer service, food preparation, cashiering, and order fulfillment
- Handled customer concerns professionally and resolved issues in a fast-paced environment.
- Adapted quickly to new responsibilities and supported team members during busy shifts

Linux System Administration June 2026 – Present
My Laptop and PC *Iowa*

- Installed and configured Linux on multiple devices
- Gained experience with command-line tools, software installation, system configuration, and troubleshooting in a Linux environment
- Diagnosed and solved issues spontaneously and learning along the way

Independent Study – Java Programming May 2026 – August 2026
self Directed *Online Coursework*

- Completed a comprehensive Java programming course led by YouTube educator Bro Code, covering core language fundamentals and object-oriented principles
- Applied concepts learned directly to ongoing projects

Projects

Balatro Joker Checklist | *JS, HTML, CSS, Python, Requests, BeautifulSoup* October 2026 - November 2026

- Built a Python web scraper that parses the Balatro wiki's HTML, filters joker thumbnails by URL pattern, and downloads all 150 full-resolution joker images automatically.
- Diagnosed a Cloudflare bot-protection block on the initial source and switched to an alternate wiki, keeping the pipeline working without circumventing site protections.
- Created a live website where you can click on images of jokers, moving them from a not completed box to a completed box
- Included a search bar which goes through the names of all Jokers and hides Jokers that don't include terms from the search bar

Chess | *HTML, CSS, JS* September 2026 - October 2026

- Built a chess program using HTML, CSS, JS
- Utilized eventListeners and other JS fundamentals in order to move pieces within the board
- Created appropriate logic to make the pieces behave like they should following classic chess rules

Technical Skills

Languages: Java, Python, C, HTML, CSS, JavaScript
Developer Tools: Git, Zeditor, Linux Command Line, VS Code, Visual Studio, IntelliJ
Operating Systems: Windows, Arch Linux
